## Mysterious happenings. Disappearances. Whispers about a long-told prophecy.

Morgan Lawrence is putting her plan into action: she will become ruler of the known lands. To do it, she must search for the last master key and control the young adventure team of prophecy. She'll stop at nothing in her quest for power, including kidnapping the esteemed wizard Master Jacob Arrington.

It's up to Henry, Miranda, and Jesse, three young, untrained, wannabe adventurers to defeat her. But they'll have to learn to trust each other and work together as their quest brings them more questions than answers. Has the ancient prophecy begun? Are they the adventurers who were foretold? And is the forgotten doorway active once more?

Join them as they race to uncover these mysteries in **The Forgotten Doorway!**
